Figure 1: Attendance Screenshot from Canvas

Figure 1 show the latest screenshot of my attendance I captured from Canvas as of 10:38 10 April 2026. I incurred absences mostly related to my 1-year old daughter being sick. In all of those absences, I did not fail to send communication to the teachers to inform them about my absence. See Figure 2.

Having multiple roles besides being a full time student can be really hard. Especially during emergencies like my children being sick - it could really be a challenge. Regardless, I made sure everytime, that I was productive. It is better to have accomplished little tasks consistently than not doing anything

at all.

Moreover, I made sure to show up everyday whenever I can.
